### Red = Allergen

- All food is freshly prepared on site each day and if any of the 14 common food allergens present, they are listed in red against each menu item and are intended as a guide to help with the choice of meal. For operational reasons it may be necessary to alter a recipe at short notice and therefore **your child or the member of school staff who presents your child at the counter must check each time before being served with the food**
- The Company handles many of the 14 common food allergens in our busy kitchens and so therefore cannot guarantee that our food is 100% free from specific food allergens
- There are foods not on the list of 14 common food allergens which can cause allergic reactions in a small number of people and if your child has such an allergy, **they or school member must check each time before being served with the food.**

Our allergen process is written to protect the welfare of the children.
